

# Franklin County Automatic Data Processing Board

**Michael Stinziano, Secretary/Chief Administrator**

*Cheryl Brooks Sullivan ♦ Kim Brown ♦ Daniel J. O'Connor, Jr  
John O'Grady ♦ Maryellen O'Shaughnessy ♦ Antone White ♦ David R. Payne*

---

**To:** The Honorable Michael Stinziano, Secretary/Administrator  
Franklin County Data Processing Board

**From:** Adam Frumkin, Chief Information Officer  
Franklin County Data Center

**Date:** September 29, 2023

**Subject:** Agenda for the Monday, October 02, 2023, Data Processing Board Meeting

The proposed agenda for the Monday, October 02, 2023, Franklin County Automatic Data Processing Board meeting is attached for your review. The meeting will be held in the Olympus Room (FCDC Auditorium) on the 9<sup>th</sup> floor of the Franklin County Courthouse, 373 S. High Street, Columbus, Ohio 43215.

**The Board will reconvene in a Regular Session at 9:00 A.M.**

*AN AGENDA WILL BE PROVIDED TO YOU AT THE MEETING.*

**Cc:** The Honorable Cheryl Brooks Sullivan, Member, Franklin County Treasurer  
The Honorable Kim Brown, Member, Franklin County Court of Common Pleas  
The Honorable Daniel J. O'Connor Jr., Member, Franklin County Recorder  
The Honorable John O'Grady, Member, Franklin County Board of Commissioners  
The Honorable Maryellen O'Shaughnessy, Member, Franklin County Clerk of Courts  
The Honorable Antone White, Member, Franklin County Board of Elections  
Mr. David R. Payne, Member, Franklin County Board of Elections

Jo Ellen Cline, Delegate, Franklin County Auditor  
Gary Dwyer, Delegate, Franklin County Auditor  
Shawn Dunlavy, Delegate, Franklin County Auditor  
Susan Bedsole, Delegate, Franklin County Common Pleas Court  
Andrew Byerly, Delegate, Franklin County Common Pleas Court  
Adam Luckhaupt, Delegate, Franklin County Clerk of Courts  
Sharlene Chance, Delegate, Franklin County Clerk of Courts  
Tammy Seelig, Delegate, Franklin County Clerk of Courts  
Angela Mathews, Delegate, Franklin County Clerk of Courts  
Zak Talarek, Delegate, Franklin County Board of Commissioners  
Juan Torres, Delegate, Franklin County Board of Commissioners  
C. Chris Cupples, Delegate, Franklin County Recorder  
Robert Hinton, Delegate, Franklin County Recorder  
Dusten Kohlhorst, Delegate, Franklin County Treasurer  
Lilly Tesfai, Delegate, Franklin County Treasurer  
Orvell Johns, Delegate, Franklin County Treasurer  
Victoria Troy, Delegate, Franklin County Treasurer  
Steven Bulen, Delegate, Franklin County Board of Elections  
Erin M. Gibbons, Delegate, Franklin County Board of Elections

# AGENDA-Automatic Data Processing Board Meeting, October 02, 2023

---

## 9:00 A.M. Convene in Regular Session

- **Call to Order**
- **Pledge of Allegiance**
- **Secretary's Comments**
- **Approve or amend the Minutes of September 11, 2023, Regular Data Board Meeting**
- **New Business**

— **Resolution No. 23-118 Franklin County Sheriff's Office – Sheriff Mobile Application**

— **Resolution No. 23-123 Franklin County Technical Equipment Salvage**

— **Resolution No. 23-124 Franklin County Data Center – Pure Storage Maintenance**

## **Motion to Hold an Executive Session for the purpose of discussing Personnel Matters**

As authorized by O. R. C. Section 121.22, Division (G)(1)

- **Second, the Motion to Hold an Executive Session**  
Roll call vote (requires a majority of the quorum)
- **Move to Executive Session**
- **Executive Session**

— Resolution No. 23-125 Personnel Action – Backfill – Enterprise Project Manager 2

— Resolution No. 23-126 Personnel Action – Backfill – Enterprise Data Loss Prevention Engineer 1

— Resolution No. 23-127 Personnel Action – Backfill – Enterprise Support Analyst 1

— Resolution No. 23-128 Personnel Action – Backfill – Enterprise Support Analyst 1

— Resolution No. 23-129 Personnel Action – New Hire – Enterprise Security Engineer 1

- **Motion to Adjourn the Executive Session**  
Roll call vote (requires a majority of the quorum)

## **Reconvene in Special Session**

- Resolution No. 23-125 Personnel Action – Backfill – Enterprise Project Manager 2
- Resolution No. 23-126 Personnel Action – Backfill – Enterprise Data Loss Prevention Engineer 1
- Resolution No. 23-127 Personnel Action – Backfill – Enterprise Support Analyst 1
- Resolution No. 23-128 Personnel Action – Backfill – Enterprise Support Analyst 1
- Resolution No. 23-129 Personnel Action – New Hire – Enterprise Security Engineer 1

**Other Business**

**Adjourn**

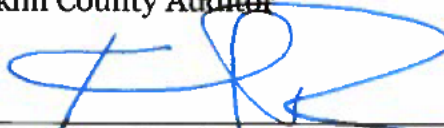

**FRANKLIN COUNTY AUTOMATIC DATA PROCESSING BOARD**

**Minutes of the September 11, 2023, Regular Board Meeting**

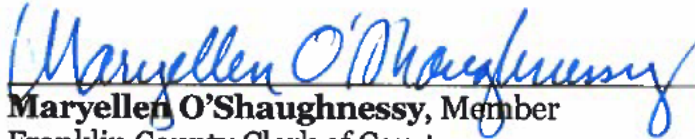

Date Approved: October 02, 2023

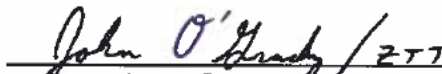

**Michael Stinziano**, Secretary, Administrator  
Franklin County Auditor

**Kim Brown**, Member  
Judge, Franklin County Court of Common Pleas

**Maryellen O'Shaughnessy**, Member  
Franklin County Clerk of Courts

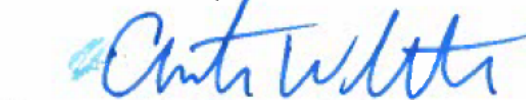

**John O'Grady**, Member  
Franklin County Commissioner

**Daniel J. O'Connor Jr.**, Member  
Franklin County Recorder

**Cheryl Brooks Sullivan**, Member  
Franklin County Treasurer

**Antone White**, Member  
Director, Franklin County Board of Elections

**David Payne**, Member  
Deputy Director, Franklin County Board of Elections

1 Monday Morning Session

2 September 11, 2023

3 - - -

4 CALL TO ORDER

5 - - -

6 SECRETARY STINZIANO: Good morning.

7 We will now call the meeting to order. Today is  
8 September 11, 2023 Automatic Data Processing Board  
9 meeting.

10 As always, we will begin with the  
11 Pledge of Allegiance.

12 Clerk, do you mind leading us in the  
13 Pledge.

14 (Pledge of Allegiance.)

15 SECRETARY STINZIANO: We will not  
16 delay. We will move to our first order of business  
17 and turn it over to Mr. Frumkin for Secretary  
18 comments.

19 - - -

20 SECRETARY COMMENTS

21 - - -

22 MR. FRUMKIN: Good morning. And  
23 welcome, Data Board members and delegates. I hope  
24 you enjoyed the long Labor Day weekend and this

1 past weekend's great weather, and win by the  
2 Buckeyes.

3           Being today, I would like to just  
4 take a moment to recognize what today is as 9-11.  
5 22 year ago, the World Trade Center in New York  
6 City was attacked and other places. And so many  
7 people, including firefighters and citizens lost  
8 their lives today, a total of 2,977, 8 EMS, 343  
9 firefighters. So I just want to take a moment to  
10 take pause and then we will move on.

11           (Moment of Silence.)

12           MR. FRUMKIN: Thank you. I  
13 appreciate that.

14           From a Project Perspective: We  
15 currently have 36 projects in the Portfolio. This  
16 is up from last month. We are actively working 26.  
17 We also have 10 projects in our backlog. And we  
18 have not closed any projects since last month.

19           We expect to complete the EMA  
20 website refresh in September in time for National  
21 Preparedness Month.

22           Per their request, the team is also  
23 working on the communications and deployment  
24 schedules for the Mobile Device Management, MDM,

1 and expects to begin communicating once our Beta  
2 pilot is over, which we will talk about here  
3 shortly.

4           The Enterprise Assessment and Tax,  
5 Tyler Tech, implementation with Franklin County  
6 Auditor continues to move in a positive direction  
7 and detailed plans are being shared with teams. As  
8 you will hear more later, the team is working to  
9 procure and deploy more than 700 new machines  
10 across the county that are compatible with Windows  
11 11. This project will kick off in earnest in  
12 October and is expected to complete in late 2024.  
13 We are excited about these projects that are  
14 currently underway.

15           From a Security Perspective: This  
16 October represents the 20th year of Cyber Security  
17 Awareness Month. The security team is working on  
18 the communications and will utilize the KnowB4  
19 solutions for planning and delivering content  
20 throughout the month. The vendor provides a nice  
21 plan to align specific topics for each week of the  
22 month. And Nikki will be talking about that a  
23 little bit more.

24           Mobile Device Management and Mobile

1 Application Management are gaining traction, if you  
2 have not heard. The pilot program for six agencies  
3 outside of the Data Center has started and will run  
4 through the month of September to attain feedback  
5 and related to rollout, training, and education. A  
6 little clarification is needed between Mobile  
7 Device Management and Mobile Application  
8 Management, MDM and MAM is what they're known for.  
9 Mobile Device Management or MDM is for county-owned  
10 devices. Requires rollout into Intune and provides  
11 additional capabilities for controlling the device,  
12 including wiping or clearing the device should it  
13 get lost. Mobile Application Management, or MAM,  
14 is a set of controls at the application level for  
15 mobile apps that do not require Intune enrollment.  
16 For apps, think of Outlook or Teams that can be  
17 installed on personal devices. The controls  
18 include authentication requirements for the  
19 application and actions that can be taken within  
20 the application itself. This is targeted more  
21 towards personally-owned devices. More information  
22 will be forthcoming as this is definitely a change  
23 in how things work for some of us.

24 I will personally add, I have been

1 running both the MAM and both sides of this on my  
2 devices, my county-owned device and personal  
3 device, with no issues for more than a month. And  
4 it's not adding additional applications. It's  
5 literally just controlling the apps we already own  
6 and already use.

7           Previously, we were asked for some  
8 metrics and would like to provide some high-level  
9 information to refine the metrics and establish the  
10 most appropriate format going forward. Some of the  
11 metrics worth mentioning:

12           The completion rate for security  
13 awareness training is currently at 79.6% for this  
14 past month. Keeping in mind that as new people  
15 join the county, they are automatically assigned  
16 the current year security awareness training.

17           The primary e-mail filtering  
18 solution, Microsoft, during August blocked 16,170  
19 phishing attempts and 175 malware delivery attempts  
20 to the county. So if you think that it's just  
21 software, it's not. It really does do something  
22 for us. The secondary e-mail filtering solution is  
23 a little more sophisticated and looks at the mail  
24 after it's gone through Microsoft. The secondary

1 solution blocked an additional 524 attacks, of  
2 which 74% were phishing attempts aimed at  
3 credential theft. So just shy of 17,000 attacks  
4 identified through both systems were blocked. Yes,  
5 this is staggering when you consider it only takes  
6 one person clicking on one of those e-mails that  
7 could cause an issue for the county.

8 Patching is considered to be a base  
9 requirement for our security program. In August,  
10 3,319 endpoints or personal devices used by each  
11 person were patched successfully, with an average  
12 time of 14.2 days. Now, someone might ask why it  
13 takes so long. It takes on when people are logging  
14 in, maybe off network and come back on network,  
15 things like that. So people working remote coming  
16 back inside. And 566 servers were patched across  
17 that time as well. Keep in mind, we take a  
18 staggered approach through the development stage  
19 and production environments to ensure minimal  
20 production impact as much as possible.

21 We also did 13 vendor risk  
22 assessments last month as well.

23 With that, I would like to turn this  
24 over to Nikki.

1 MS. MILBURN: Some of the stats that  
2 seem to be very, very relevant, kind of where we  
3 are at from a security posture. I know July I  
4 talked about the Zero Trust framework, and kind of  
5 the strategy for the security team and where we are  
6 going. I did miss last month's Data Board;  
7 however, I did have the opportunity to work with  
8 MS-ISAC, which is Multi-State Information Sharing  
9 and Analysis Center. It is specifically for  
10 Government. So federal, state, local, tribal and  
11 territorial all kind of come together and looking  
12 at the various problems we have, security issues  
13 that are going on.

14 So some of the key highlights from  
15 that: We are further ahead than a lot of  
16 municipalities, counties and some states in what we  
17 do in our security posture. We do have opportunity  
18 to work with others to kind of provide advice and  
19 guidance on where to go, what's next, here's some  
20 quick, easy table stakes for you to really improve  
21 your security there.

22 One of the other items that's talked  
23 about a lot is holistic state security approach,  
24 which is very, very different. Some states have

1 been able to implement it. Really when you are  
2 looking at it, that is the ability to buy security  
3 tools in bulk. So the state of Ohio we are talking  
4 about, okay, what does that mean to do it. So our  
5 secondary security, e-mail security solution,  
6 they're trying to engage them if we do this across  
7 all counties, municipalities, what would that total  
8 be. And then get pricing around that, and say,  
9 okay, we can offer it to them. This is what the  
10 smaller areas would pay for that. Kind of the gap  
11 that's identified, but no real good solution for it  
12 yet. Who's maintaining this, who's implementing  
13 it. It's one thing to buy it, but it's another  
14 thing to actually implement it and use it as a  
15 solution. So that's one of the problems we are  
16 trying to work through and figure out how do we  
17 better do this. Because everybody is in their own  
18 Data Centers, their own infrastructures, own IT.  
19 So definitely something we are talking about. And  
20 Zero Trust came out of there as well. How are they  
21 doing that from a network perspective. So again,  
22 all very, very relevant topics, what we are doing  
23 here, and how we can better participate with other  
24 folks. So I know in July we were talking Zero

1 trust, and there's the pillars. Identity was the  
2 first one that I kind of wanted to talk about of  
3 where we are at. Things we do well. We do MFA  
4 very well here at the county. We have implemented  
5 it, and a lot of places haven't. We do identity  
6 federations with single sign-on. You can use your  
7 county credentials on other applications. We do  
8 that very well.

9 Privileged Identity Management, if  
10 you're an admin working on infrastructure and  
11 solutions you have secondary accounts that allow  
12 you to be able to do that. It's protected from the  
13 e-mail that comes in. You can click on it, it  
14 won't get your secondary. It may get your primary,  
15 which is awful, but it's not getting those admin  
16 level credentials to the solutions that we have  
17 here. So those are some of the things.

18 We do the access certifications  
19 quarterly. I want to revamp that and do a little  
20 more next year, and how we're looking at it. Not  
21 just do you have an account, but what do you have  
22 access to and how important is that.

23 Phishing and security awareness  
24 training, those are kind of table stakes for us.

1 We do these routinely and consistently. So that's  
2 kind of our keep the lights on efforts we have.

3           Going towards the latter part of  
4 this year, we did finish the pilot, or the POC for  
5 user automation, To where current state, you put in  
6 a security request form and your next step is,  
7 okay, we go through, we evaluate it, did you spell  
8 this right, what are you looking for, and we build  
9 that and then we build the account. This would  
10 allow for you to basically go to a one-stop shop  
11 and allow you to enter the information and then  
12 provisions the account, the e-mail, the  
13 entitlement, everything there on that time, like  
14 the licenses that are needed for it. This is what  
15 we are looking at. We finished the POC. So that  
16 is one project that we will be closing probably in  
17 the coming weeks is the POC piece of it. And we  
18 will start the project for the actual  
19 implementation of the solution. That's one thing  
20 you will see.

21           Kind of piggybacked with that is  
22 role-based access control. So I know some areas we  
23 have already done that. We've gone through and  
24 we've worked with the IT contact, and said here is

1 all of the entitlements your people have, what job  
2 role does that line up to. So if somebody in that  
3 same job role starts, they now get all of those  
4 entitlements at the same time. So we are making us  
5 more efficient for people. They're getting what  
6 they need on day one. Instead of the back and  
7 forth, oh, they don't have this, okay, we will come  
8 back and add it. Okay, now they're missing this,  
9 now we have to come back and add it. So it's  
10 making us much more self-service oriented and  
11 allowing us to shift our focus a little. So  
12 role-based access control, you will hear from us  
13 more on that, reaching out to the agencies, what  
14 does it look like for you. That's just 2023.  
15 2024, I will revamp the access certification  
16 program. So we do it quarterly now. We use  
17 SailPoint to do that. I will be shifting away from  
18 that to something else where we can certify roles  
19 instead. Not just you have an account, but these  
20 are the roles that you have and these are the right  
21 entitlements of that role. Do you have admin  
22 privileges? If you do, here is where they're at.  
23 Please verify this is what this person has.

24 So we have quite a bit we are

1 looking to do throughout the end of this year and  
2 early part of next year. There's a lot going to  
3 happen. You will see it change. That's just one  
4 of the pillars we are working through.

5 Unless anybody has any questions,  
6 which I'm certainly open to questions at any time.

7 Yes, ma'am.

8 CLERK O'SHAUGHNESSY: Do you know of  
9 any attacks on governmental offices or agencies  
10 throughout Ohio at this point?

11 MS. MILBURN: Any active attacks  
12 going on?

13 CLERK O'SHAUGHNESSY: I know that  
14 the Ohio History Connection was a victim of  
15 ransomware.

16 MS. MILBURN: Yep. Those go on  
17 quite frequently. You just don't hear about them.  
18 Especially when it's a smaller municipality. Kind  
19 of one of the key things that we would have in  
20 place is our backup infrastructure, really, really  
21 helps us with that. When they work with the CSIA,  
22 we do have a regional person that we work with,  
23 they give us the indicators of compromise. So we  
24 can see are there bad IPs, are there bad sites.

1 They provide us the intel, we run that through our  
2 system. And we start looking has anybody been to  
3 that IP, anybody been to that website, is there an  
4 e-mail that we should be looking for, sender,  
5 anything like that. We do get the indicators of  
6 compromise from them.

7 CLERK O'SHAUGHNESSY: I think we are  
8 doing a good job. You know, I worry about the  
9 others, whether they really get it, how important  
10 this is. So thank you.

11 MS. MILBURN: We are starting to  
12 talk more at the local level than before. Because  
13 a lot of it we worked with the federal and they  
14 tell us, or we work with the state here and there,  
15 But more at the local level.

16 That was one of the great things  
17 about MS-ISAC, I got to meet more of the people  
18 from Ohio, some of the other counties and their IT  
19 leaders to start collaborating more on how are we  
20 tackling this? What have you seen? What are you  
21 seeing? Because it takes time for it to go from  
22 the local level to the state to the federal, and  
23 then come back down. As long as we are talking to  
24 each other, we are able to provide that information

1 much faster.

2 CLERK O'SHAUGHNESSY: Thank you.

3 MR. FRUMKIN: I would like to add,  
4 the other side of that is one of the plans that  
5 Nikki has had and we have discussed is getting more  
6 of the local entities within Ohio, especially  
7 around the central Ohio area, more together and  
8 having discussions. Because finding out  
9 information faster, one, helps us. But we are also  
10 finding -- I will say it this way, we are very  
11 fortunate, but we can't stop with security controls  
12 and levers we put in place. We are ahead of most  
13 of our counterparts around us. I would hope we are  
14 because we've taken a view of we need to be better  
15 in class than most because of our size and what we  
16 do and who we are. So we've got other entities now  
17 looking to us and asking us for assistance. And in  
18 that we get information.

19 The other thing that Nikki did not  
20 share is we get daily, if not more than daily, and  
21 we sometimes get more than one a day from MS-ISAC  
22 on things that are new that we need to know about.  
23 So it comes in on a regular basis. We have to take  
24 the time and read through it, go through it, digest

1 it, and see, okay, is this something we need to  
2 take action on? No, it does not pertain to us.  
3 But we get a lot of information from both national,  
4 state, and now with our local contacts, making more  
5 of those will help us even more.

6 CLERK O'SHAUGHNESSY: You can never  
7 rest. Yeah. Thank you.

8 MR. FRUMKIN: Julie.

9 MS. LUST: My stuff isn't nearly as  
10 exciting, but I will get through it quick.

11 Expenses are exactly where we would  
12 think they would be this time of year. But revenue  
13 is running behind schedule, behind budget. This is  
14 mainly because we are no longer billing Children's  
15 Services for their network connections since  
16 they've totally moved over to the state. And while  
17 project work is up, project work for billable  
18 agencies is down currently. So we should have an  
19 estimate for you next month on exactly where we  
20 will fall with that.

21 We've also been negotiating with a  
22 lot of our partners here recently. We have  
23 concluded a negotiation with Dell. We received  
24 what we consider to be an unacceptable amount of

1 laptop failures that required repair. And every  
2 time there's a repair, it does impact not only the  
3 Data Center team, but as we explained to them, our  
4 partners in the field that could be working while  
5 that laptop is being worked. So we negotiated a  
6 deal with them that would save us approximately  
7 \$312,000 on the purchase of new laptops. And  
8 that's both by the Data Center and Office on Aging.

9 We are also entering a negotiation  
10 right now with Microsoft for a new three-year  
11 contract for our endpoint software and our server  
12 software. So we will conclude that here in the  
13 next couple months.

14 We've also submitted our 2024  
15 budget. We are very pleased that we were able to  
16 absorb our IT plans within our baseline budget. So  
17 we only had one RFR to submit. And that is to  
18 transfer contractor money over to permanent FTEs.  
19 And these FTEs, as we spoke about Nikki's security  
20 area, four of the six FTEs will be to expand our  
21 security functionality, two of the FTEs will be to  
22 expand our network functionality. So we know that  
23 if we don't have a reliable and secure  
24 infrastructure that shuts down so much what our

1 partners do. So we are focusing on that.

2 Also, we have found that our FTEs  
3 produce better quality work than the contractors  
4 were. So we're asking to move that over from our  
5 contractors to FTEs.

6 And we also wanted to take the  
7 opportunity to thank OMB and county administration  
8 for their assistance throughout the budget process.

9 So, Juan, thank you very much and,  
10 Larry, you have been great partners to work with.

11 And that concludes the financial  
12 updates.

13 MR. FRUMKIN: Barring any questions  
14 or comments, I would like to defer back to Auditor  
15 Stinziano.

16 SECRETARY STINZIANO: Thank you all  
17 for the updates.

18 Any questions or comments?

19 - - -

20 APPROVAL OF MINUTES

21 - - -

22 SECRETARY STINZIANO: Hearing none,  
23 we will move to approval of the minutes from the  
24 August 7, 2023 Regular Board meeting. Are there

1 any amendments or corrections?

2 Hearing no further review, I'd like  
3 to seek a motion for approval.

4 CLERK O'SHAUGHNESSY: I so move.

5 DIRECTOR WHITE: Second.

6 SECRETARY STINZIANO: It's been  
7 moved and seconded. All those in favor, please  
8 signify by voting aye.

9 Same sign for any opposition.

10 And any abstentions.

11 Minutes are approved.

12 (Vote taken; motion passed)

13 - - -

14 NEW BUSINESS

15 RESOLUTION NO. 23-114

16 - - -

17 SECRETARY STINZIANO: We will begin  
18 with our New Business.

19 First Resolution is 23-114, Franklin  
20 County Technical Equipment Salvage.

21 MS. LUST: This is equipment that  
22 has reached end-of-life and should be disposed of.  
23 The list is much longer than normal because we did  
24 not have a resolution last month. But there's

1 nothing unusual on it.

2 So pending any questions, I request  
3 your approval.

4 SECRETARY STINZIANO: Thank you for  
5 the update.

6 Any questions or comments?

7 Hearing none, I would like to seek a  
8 motion for approval.

9 CLERK O'SHAUGHNESSY: I so move.

10 MR. CUPPLES: Second.

11 SECRETARY STINZIANO: It's been  
12 moved and seconded. All those in favor, please  
13 signify by voting aye.

14 Same sign for any opposition.

15 And any abstentions.

16 Resolution is approved.

17 (Vote taken; motion passed)

18 - - -

19 RESOLUTION NO. 23-115

20 - - -

21 SECRETARY STINZIANO: Next is  
22 Resolution 23-115, Franklin County Data Center,  
23 Network Hardware for Build-Out at 55/57 East Main  
24 Street.

1 MS. LUST: This is a resolution that  
2 approves the hardware procurement for both wired  
3 and Wi-Fi network access at the new Sheriff  
4 location at 55 and 57 East Main. It doesn't  
5 include the dual internet services, and we hope to  
6 be able to absorb that within our baseline, but it  
7 is for the hardware.

8 So pending any questions, I request  
9 your approval of this Resolution.

10 SECRETARY STINZIANO: Thank you for  
11 the presentation.

12 Any questions or comments?

13 Hearing no further review, I'd like  
14 to seek a motion for approval.

15 CLERK O'SHAUGHNESSY: I so move.

16 MR. KOHLHORST: Second.

17 SECRETARY STINZIANO: It's been  
18 moved and seconded. All those in favor, please  
19 signify by voting aye.

20 Same sign for any oppositions.

21 And any abstentions.

22 Resolution is approved.

23 (Vote taken; motion passed)

24

- - -

## 1 RESOLUTION NO. 23-116

2 - - -

3 SECRETARY STINZIANO: Next is  
4 Resolution 23-116, Franklin County Data Center,  
5 Laptops Procurement and Deployment Activities in  
6 Support of County Technology.

7 MS. LUST: Thank you.

8 And as you guys are all aware,  
9 making sure that we have updates for all of the  
10 operating systems, both on our endpoints and  
11 servers, are a vital part of our security program.  
12 The Windows 10 operating system will be reaching  
13 end-of-life, that's not getting security updates in  
14 2025. The Data Center is being proactive on the  
15 update of those machines. And this Resolution  
16 approves that project to not only deploy the newer  
17 operating system, and ensures all of our endpoint  
18 devices but also some procurement of hardware for  
19 devices that don't have the specifications needed  
20 to run that operating system. This particular  
21 Resolution is part of that Dell negotiation that we  
22 spoke of and the procurement of 583 laptops at a  
23 specific price.

24 So pending any questions, request

1 your approval of that Resolution.

2 SECRETARY STINZIANO: Thank you for  
3 your presentation.

4 Are there any questions or comments?  
5 Hearing none, I'll seek a motion for  
6 approval.

7 CLERK O'SHAUGHNESSY: I so move.

8 DIRECTOR WHITE: Second.

9 SECRETARY STINZIANO: It's been  
10 moved and seconded. All those in favor, please  
11 signify by voting aye.

12 Same sign for any opposition.

13 And any abstentions.

14 Resolution is approved.

15 (Vote taken; motion passed)

16 - - -

17 RESOLUTION NO. 23-117

18 - - -

19 SECRETARY STINZIANO: Next is  
20 Resolution 23-117, Franklin County Coroner's  
21 Office, LIMS-plus JusticeTrax Upgrade.

22 MR. BAKER: Good morning. I'm Dan  
23 Baker, I'm the Chief Toxicologist for Franklin  
24 County Coroner's Office.

1                   This Resolution seeks to acquire an  
2 upgrade to our laboratory information management  
3 system that we use in the toxicology laboratory.  
4 The Coroner employs both a case management  
5 software, called MDI Log; however, the forensic  
6 laboratory utilizes JusticeTrax Laboratory  
7 Information Management System. These two software  
8 programs communicate with each other. And the  
9 current version of the JusticeTrax LIMS-plus used  
10 by the laboratory is reaching end-of-life at the  
11 end of 2023. The software connection between  
12 LIMS-plus and MDI will also need to be updated when  
13 JusticeTrax is updated. This is a new cloud-based  
14 service, And the estimated cost over a five-year  
15 period is \$249,100. Replacing this outdated  
16 application is important to the security and  
17 resiliency of the county environment. The Coroner  
18 will work with Franklin County Data Center  
19 throughout the procurement process and its  
20 implementation. Franklin County Data Center  
21 supports and recommends this Resolution.

22                   Pending any questions, I ask for  
23 your approval of this resolution.

24                   SECRETARY STINZIANO: Thank you for

1 the presentation.

2 Any questions or comments from  
3 members of the Board?

4 Hearing no review, I'd like to seek  
5 a motion to approve the Resolution.

6 CLERK O'SHAUGHNESSY: I so move.

7 MR. CUPPLES: Second.

8 SECRETARY STINZIANO: It's been  
9 moved and seconded. All those in favor, please  
10 signify by voting aye.

11 Same sign for any opposition.

12 And any abstentions.

13 Resolution is approved.

14 (Vote taken; motion passed)

15 SECRETARY STINZIANO: Dan, I've got  
16 to comment, do you ever go to Dan the Baker? Do  
17 you get that a lot in town?

18 MR. BAKER: No. Sometimes I'll get  
19 a phone call that should have went to him.

20 SECRETARY STINZIANO: I also  
21 appreciate your service to the county.

22 - - -

23 RESOLUTION NO. 23-118

24 - - -

1                   SECRETARY STINZIANO: Next is  
2 Resolution 23-118, Franklin County Sheriff's  
3 Office, Sheriff's Mobile Application. It's my  
4 understanding we will take no action on this, but  
5 we will have a comment from Board of Commissioners.

6                   MR. TORRES: So Board of  
7 Commissioners and Office of Management just has a  
8 number of questions regarding the Resolution, and  
9 we would ask to defer until the October Data Board.

10                   SECRETARY STINZIANO: Any objection  
11 or deference?

12                   Hearing none, we will keep moving.

13                   - - -

14                   RESOLUTION NO. 23-119

15                   - - -

16                   SECRETARY STINZIANO: Next is  
17 Resolution 23-119, Franklin County Job and Family  
18 Services, Master Service Agreement.

19                   MS. PEOPLES: Good morning. I am  
20 Melissa Peoples, BRM for Data Center.

21                   This Resolution is for the Master  
22 Service Agreement for Franklin County Job and  
23 Family Services. They have a great team and FCDC  
24 looks forward to continuing this partnership. The

1 agreement is on par with past agreements.

2 And if there are no questions, I ask  
3 for your approval of Resolution 23-119.

4 SECRETARY STINZIANO: Thank you for  
5 the presentation.

6 Any questions or comments?

7 Hearing no further review, I'd like  
8 to seek a motion for approval.

9 CLERK O'SHAUGHNESSY: I so move.

10 DIRECTOR WHITE: Second.

11 SECRETARY STINZIANO: It's been  
12 moved and seconded. All those in favor, please  
13 signify by voting aye.

14 Same sign for any opposition.

15 And any abstentions.

16 MR. TORRES: Board of Commissioners  
17 abstains.

18 SECRETARY STINZIANO: Abstention  
19 noted.

20 Resolution is approved with the  
21 Commissioners abstention.

22 (Vote taken; motion passed)

23 - - -

SECRETARY STINZIANO: Next we will move to our personnel actions, we have three. Is there any desire to move into executive session?

Hearing none, we will proceed with the presentations.

MS. FRANZ: Good morning everyone.

We have three resolutions we are seeking your approval for this morning.

The first Resolution is 23-120.

This is for hiring Harrison Ponce as a Digital Product Owner 2. Harrison is currently working at Denison University, where he provides consulting, IT support, training to employees, best practices for IT Asset Services Management, and Desktop support. We are eager for him to join our team to continue those services here with us to support us and our partner agencies.

Second resolution we are seeking your approval for is Resolution 23-121. This is to hire Caitlyn Couglin for a Digital Product Owner 1. She's currently working at FCDJR as an IT specialist. Caitlyn is definitely somebody that is eager to join our team, as well as have her join us

1 to expand her skills but keep her in Franklin  
2 County. She is a public servant; so we are excited  
3 for her to join our team.

4 Next Resolution I'm seeking your  
5 approval for is 23-122. This is for a promotion  
6 for Brandi Guess to a Digital Product Owner 1.  
7 Brandi has been a valuable member of our Help Desk  
8 team. She recently received her iTel certification  
9 and we are excited to move her to the next part of  
10 her career and join that team.

11 So with that, we're seeking your  
12 approval for those three Resolutions.

13 SECRETARY STINZIANO: Thank you for  
14 the update.

15 We will begin with Resolution  
16 23-120, Backfill, Digital Product Owner 2. Are  
17 there any questions or comments?

18 Hearing no further review, I'd like  
19 to seek a motion for approval.

20 CLERK O'SHAUGHNESSY: I so move.

21 DIRECTOR WHITE: Second.

22 SECRETARY STINZIANO: It's been  
23 moved and seconded. All those in favor, please  
24 signify by voting aye.

1 Same sign for any opposition.

2 And any abstentions.

3 Resolution is approved.

4 (Vote taken; motion passed)

5 SECRETARY STINZIANO: Next is  
6 personnel Resolution 23-121, Backfill, Digital  
7 Product Owner 1. Are there any questions or  
8 comments from members of the Board?

9 Hearing none, I'd like to seek a  
10 motion for approval.

11 DIRECTOR WHITE: So moved.

12 MR. CUPPLES: Second.

13 SECRETARY STINZIANO: It's been  
14 moved and seconded. All those in favor, please  
15 signify by voting aye.

16 Same sign for any opposition.

17 And any abstentions.

18 Resolution is approved.

19 (Vote taken; motion passed)

20 SECRETARY STINZIANO: Next, and our  
21 final Resolution is personnel Resolution 23-122,  
22 Promotion, Digital Product Owner 1. Are there any  
23 questions or comments from Members of the Board?

24 Hearing no further review, I'd like

1 to seek a motion for approval.

2 DIRECTOR WHITE: So moved.

3 CLERK O'SHAUGHNESSY: Second.

4 SECRETARY STINZIANO: It's been  
5 moved and seconded. All those in favor, please  
6 signify by voting aye.

7 Same sign for any opposition.

8 And any abstentions.

9 Resolution is approved.

10 (Vote taken; motion passed)

11 - - -

12 OTHER BUSINESS

13 - - -

14 SECRETARY STINZIANO: That concludes  
15 today's Resolutions. We will move to Other  
16 Business.

17 Any updates from the Court?

18 MR. BYERLY: Nope.

19 SECRETARY STINZIANO: Clerk's  
20 office?

21 CLERK O'SHAUGHNESSY: No updates  
22 from my office. I hope we are made aware of any  
23 issues that the county commissioners comes up with  
24 regarding the software for the Sheriff's office.

1                   SECRETARY STINZIANO: Board of  
2 Commissioners.

3                   CLERK O'SHAUGHNESSY: Keep us in the  
4 loop.

5                   MR. TORRES: Nothing.

6                   SECRETARY STINZIANO: Recorder's  
7 office.

8                   MR. CUPPLES: No. Thank you.

9                   SECRETARY STINZIANO: Treasurer's  
10 office?

11                  MR. KOHLHORST: Nope.

12                  SECRETARY STINZIANO: Friends at the  
13 Board of Elections.

14                  DIRECTOR WHITE: We are grooving.

15                  SECRETARY STINZIANO: Very good.

16 Hearing nothing else, we are adjourned.

17                  Thank you for your time. Enjoy  
18 September.

19   - - -

20                  Thereupon, the proceeding concluded at

Title	Sheriff Mobile Application
Agency	Franklin County Sheriff's Office
Amount	\$89,132.67
Category	Software and Technology Services

---

### **Business Justification**

The Franklin County Sheriff's Office's mission is to protect the lives and property of the citizens of Franklin County. TheSheriffApp.Com is a mobile application customized for the Sheriff's Office to have available for residents of Franklin County. Residents can access the mobile application to receive push notifications on active situations and search features for Inmates, active warrants, and registered sex offenders. Implementing this mobile app will better protect the community by allowing people to stay updated with the latest information.

### **Description**

This procurement request includes the licensing, development, vendor implementation, and a three-year support contract to the Franklin County Sheriff's Office.

### **Fiscal Information**

**Funding Source:** The Franklin County Sheriff's Office will pay for this from the Asset Forfeiture Fund and through a Sourcewell Cooperative Contract.

**FRANKLIN COUNTY, OHIO  
AUTOMATIC DATA PROCESSING BOARD**

**FRANKLIN COUNTY DATA CENTER  
INFORMATION TECHNOLOGY PROCUREMENT REQUEST  
PURE STORAGE MAINTENANCE**

**WHEREAS**, in accordance with Ohio Revised Code Section 307.84, the Franklin County Automatic Data Processing Board may authorize, in writing, any County office to purchase, lease, operate, or contract for the use of any automatic or electronic data processing or record-keeping equipment, software, or service; and,

**WHEREAS**, in the normal course of conducting Data Center business, it is necessary to purchase various goods and services; and,

**WHEREAS**, the attached list describes those purchases the Data Center Chief Information Officer feels are required to continue the normal and usual operation of the Data Center; and,

**WHEREAS**, the Automatic Data Processing Board has determined that it is in the best interest of the County to authorize these expenditures, contingent upon the Franklin County Board of Commissioners' approval, and,

**NOW, THEREFORE, BE IT RESOLVED** that the Franklin County Automatic Data Processing Board authorizes the expenditure of funds and grants the Data Center Chief Information Officer, authorization to approve these requisitions in MUNIS.

Franklin County Automatic Data Processing Board  
Information Technology Procurement Resolution  
Resolution #: 23-124  
Dated: 10/2/2023

---

Title	Pure Storage Maintenance
Agency	Franklin County Data Center
Amount	Not to Exceed \$535,000, three-year
Category	Technology Hardware and Software maintenance

---

**Business Justification**

The Franklin County Data Center provides data storage services to partner agencies, courts, boards, and programs. This resolution approves the procurement of hardware and software maintenance for the Pure Storage solution.

**Risks**

The Data Center does not anticipate any risks associated with this procurement or deployment.

**Fiscal Information**

Funding Source: The Data Center will work with OMB to identify funding for this maintenance.

**KEY RESPONSIBILITIES OF THE ROLE**

- Provides day-to-day operational management for the project team within the scope of assigned projects.
- Plans, organizes, and coordinates all aspects of assigned, highly complex technology projects to implement the Data Center IT Plan and provide IT services in response to customer project requests.
- Ensures that the goals and objectives of assigned projects are accomplished on time and within budget.
- Manages the project planning process, including identifying needed resources, developing a project plan, coordinating with stakeholders to reach an agreement on requirements and task assignments, managing and coordinating team activities, and executing the project plan.
- Develops and manages all appropriate project management documents, including project plan, resource estimates, project budget, project schedule, team roster and assignments, issue management, risk management, change control, and periodic status reports. Assumes a critical role in developing the project budget and its presentation as necessary.
- Serves as a key liaison between the project team and the customer to provide updates and obtain feedback, ensuring proper and timely communication. Uses leadership and communication skills to help communicate management goals and interact with the users in the development of business applications.
- Provide regular communication to the organization regarding the progress and status of projects.
- Works closely with the users to ensure that the design and development of the new or enhanced applications adequately meet the business requirements.

**FRANKLIN COUNTY, OHIO  
AUTOMATIC DATA PROCESSING BOARD**

- Coordinates project team activities across functional areas and disciplines to accomplish project goals.
- Coordinates with customers to develop new systems and to ensure existing systems meet their needs.
- Provides leadership and coaching to assigned team members.
- Works closely with business, administrative, and technical staff to meet customer needs.

**EMPLOYMENT NOTABLES**

- In her current role as an IT Project Manager at the Ohio Department of Development, she manages the software project development process from initiation through closure by working with operations, development, and business teams to build valuable applications.
- In her previous role with the Ohio Department of Development, she worked as a Technical Assistance Manager, where she drafted business requirements, introduced quality assurance testing, and conducted research to prevent systemic interruptions.
- She is eager to bring her curiosity, big-picture thinking, and leadership to FCDC to elevate the current PMO team.

**EDUCATION & OTHER CREDENTIALS**

- **Certificate in Public & Nonprofit Leadership**, *The Ohio State University*

## CAREER EXPERIENCE

### Ohio Department of Development

December 2013 – Present

#### *IT Project Manager*

October 2022 – Present

- Successfully manage the software project development process from initiation through closure by working with operations, development and business teams to build useful applications
- Create and update project documents, schedule and backlog
- Conduct user testing to ensure the quality of deliverables before presenting to business
  - Implemented an agency-wide risk management process, reducing threats to project completion and integrity

#### *Technical Assistance Manager*

September 2021 – October 2022

- Drafted business requirements for expansion and new application development, effectively communicating business needs to Operations and Development teams
- Prioritized backlog items for two offices, totaling 50 employees
- Introduced detailed quality assurance testing requirements for business testing, resulting in a 10% reduction in defects in the live environment
- Conducted research to prevent systemic interruptions
- Developed long-term strategies to improve efficiency and transparency in business processes
  - Implemented ticketing system to improve transparency and backlog prioritization for 100 employees
  - Served as a co-product owner on a \$9M migration project, successfully converting 50 programs to Salesforce for 100 employees and more than 2,000 external users

#### *Manager, Special Projects*

April 2017 – September 2021

- Collaborated with business and technical teams to develop and deploy software products, improving efficiency by implementing technical solutions
  - Increased Salesforce acceptance by 75% within a two-month period by developing comprehensive training materials
  - Created cloud-based data management system for remote work during COVID-19 pandemic
  - Reduced grant agreement production time by 15 days by implementing an electronic grant process

#### *Manager, Information and Support*

December 2013 – April 2017

- Organized and managed two-person team to execute electronic storage process for administrative files
- Crafted presentations, reports and talking points
- Developed website content and social media posts
- Led a team of 10 to execute annual three-day training conference for 200 attendees
  - Established correspondence standards by composing style guide for staff of 50
  - Developed weekly bulletin to foster regular communication with 1,500 external stakeholders
  - Implemented and executed electronic correspondence process, eliminating grant-related mailing costs

Microsoft Office (Word, Excel, Teams, and OneNote)

## Professional Experience

**2021-Present • CoverMyMeds • Columbus, OH**

### Account Coordinator (2021 to Present)

Provide exceptional service to insurance plans, prescribers, and pharmacies with intimate prior authorization process knowledge. Troubleshoot both common and uncommon errors with attention to detail and critical thinking through the use of workflow procedures and cross-collaboration. Consistently stay up to date on procedure changes and ensure adherence while providing white-glove product and prior authorization support.

- Collaborate with team members for correcting issues and handling daily tasks
- Proactive in identifying errors and providing efficient resolutions
- Track drug activity and initiatives to identify areas of improvement
- Make outbound calls to provide assistance with prior authorization errors
- Balance follow-up tasks as well as inbound calls based on Pod needs

White-Glove Service

Understanding  
User Needs

Eager to Learn

**2018-2022 • BestBuy Co., • Columbus, OH**

### Geek Squad Advanced Repair Agent (2020 to 2022)

Identify and offer technology related, solution-based recommendations to solve client needs and ensure that no customer is left overlooked. Create and maintain a supportive environment for customers by asking the right questions, listening carefully, taking detailed notes and partnering with other team members. Diagnose technology issues through various troubleshooting activities including the use of specialty software. Passionate about technology and leveraging technical abilities to create positive customer interactions by solving a variety of software and hardware issues.

- Encouraged a positive customer experience by providing solutions for their needs
- Supervised consultation agents and delivered coachings and trainings as needed
- Leader in revenue, net promoter score, and client unit turn-time metrics
- Expertly guided the transition of new agents into the consultation agent position
- Completed daily rhythms to ensure success and distribute precinct metrics to all employees
- Served as a trustworthy, dedicated team member who inspires the team toward continuous improvement

Delivered Excellent  
Customer Service

Timely Follow Up

Improved the  
Bottom Line

### Geek Squad Consultation Agent (2020 to 2020)

As the first point of contact, provided knowledgeable technology solutions and support, while maintaining a friendly, efficient check-in and check-out experience for customers requiring product or other technical assistance. Created and maintained a supportive, positive environment for customers by investing time, recording client concerns, and engaging with fellow employees to determine resolutions. Displayed a genuine passion for and strive to resolve consumer electronic challenges.

- *Experience using and learning about consumer electronics*
- *Monitored queues and provided accurate status updates to customers*
- *Prioritization and multitasking in a fast-paced environment*
- *Provided positive, timely engagements with customers during check-in and check-out process*
- *Empowered employees by providing additional development materials, such as role-play scenarios, and emphasized personal accountability amongst the team*
- *Impactful performance in revenue and net promoter score metrics*

**Awarded for  
Performance**

**Clear  
Communication**

**Surpassed Goals  
and Targets**

### Digital Imaging Sales Professional (2018 to 2020)

Created a world-class shopping experience for customers while meeting their technology needs within their primary area of expertise. Built quality relationships with retail consumers to provide them with relevant and memorable product demonstrations. Delivered profitability by achieving revenue, margin, solutions, and operational targets.

- *Performed as a trusted subject matter expert for specific areas of expertise*
- *Applied a high level of intimate product knowledge through ongoing learning and self-development to enable an excellent customer shopping experience*
- *Coached and trained co-workers on new technology and services*
- *Learned key interpersonal skills and business insight for continued advancement*

**Enhanced Customer  
Service**

**Delivered Profitable  
Growth**

### Various In-Store Roles (2018 to Present)

Began career by holding a variety of roles in various store departments. Gained experience in sales, customer service, team collaboration, employee coaching, and service quality excellence.

## PROFESSIONAL EXPERIENCE

**NSOC Systems Engineer – EasyIT | Dublin, OH**

January 2023 – Present

Ensure stable operation of computer hardware, software systems, and network infrastructure, managing and protecting all endpoints. Analyzing systems and metrics, provided recommendations for service improvements and performed in-depth analysis and reporting on security vulnerabilities both on-prem and in cloud environments such as Google Workspace and Microsoft Office 365.

- Configure, implement, and monitor SIEM in client environments
- Configure, implement, and monitor EDR in client environments
- Identify, analyze, and respond to malicious behaviors from varying sources and mitigate future incidents
- Perform internal and external security assessments for new threat attack vectors on client environments and provide recommendations to improve security posture

**Systems Engineer – EasyIT | Dublin, OH**

March 2021 – January 2023

Ensured stable operation of computer hardware, software systems and network infrastructure, including routers, switches, servers, and VOIP telephony. Install, deploy, support and maintain all virtual desktop infrastructure (VDI) and virtual application environments.

- Diagnose and provide root cause analysis for deliverability issues, application, hardware, network, and O/S issues.
- Evaluate and analyze systems and metrics in order to provide recommendations for service improvements.
- Coordinate the design, implementation, operation, and maintenance of email system and network.
- Review and update service policies and procedures to safeguard critical systems, information and data.
- Create and maintain high-quality documentation of all relevant specifications, systems, and procedures.

**Desktop Engineer - EasyIT | Dublin, OH**

November 2019 – March 2021

**Tier 3 Service Desk Analyst – PCM | Lewis Center, OH**

May 2019 – November 2019

**Tier 1 Service Desk Analyst – PCM | Lewis Center, OH**

September 2017 – May 2019

**Shift Supervisor – Starbucks | Sunbury, OH**

July 2015 – September 2017

## EDUCATION

**Bachelor of Science in Cybersecurity and Information Assurance**

Anticipated: February 2024

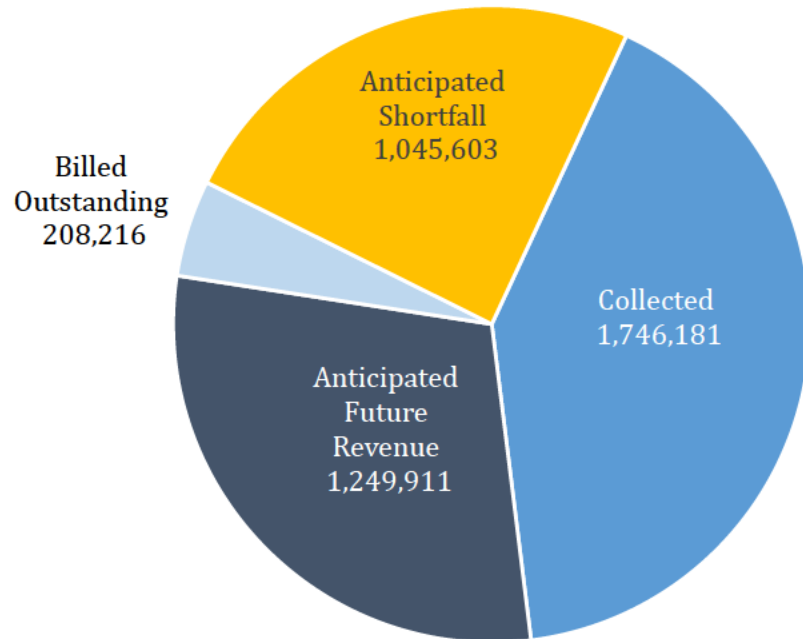

*Western Governors University | Salt Lake City, UT*

- Studies focused in IT Foundations, Network Infrastructure Design and Security
- Member of the Order of the Sword & Shield honor society
- Member of the National Society of Leadership and Success
